HARDWICK

Four Houses on One Street Were Visited By Burglars.

Hardwick people are quite wrought up over the burglary of two houses out of four visited by an amateur thief early Monday morning, all four visits being to houses on Maple street. He visited the home of W. E. Fraser and family and Mrs. Annie Pierce, who reside in the Dwinell house. In the Fraser apartments he took \$4.15 in money and Mrs. Fraser's wedding ring, both of which were on the clock shelf in the kitchen. He also took a new tallow candle from a small dark room, which he lighted and then threw the burnt match under the couch in the dining room. He visited several rooms in the Fraser tenement and also in Mrs. Pierce's and left drop of tallow grease all over the floors, even from the front door where he made his entrance with the door key which he discovered under the rubber door mat. Leaving the same way he entered C. T. Pierce's house just across the way through the woodshed, where another burnt match was found. He wandered into all the rooms in this house on the ground floor, leaving the same marks. He took 10 cents in change in a small purse, overlooking about \$4 in another place; also took a nice necktie and scarf pin belonging to Mr. Pierce as well as other valuable articles of jewelry which he found in one place and another. Alex Parks' house was next broken into, the burglar gaining entrance by way of a back kitchen window, but being unable to get any farther into the other rooms he went out the back door, going from there to P. A. Shattuck's house at the top of the first hill, where he tried both kitchen and dining room doors, but was scared away by the dog. Mr. Shattuck saw the man, but he was so far away, running down the hill that he could not identify him. Several clues have been discovered and followed, but thus far have amounted to nothing.

RANDOLPH

General Quarantine on Public Gatherings Has Been Imposed.

At a meeting of the health officer, Dr. Bailey, the trustees of the village, the selectmen and Principal E. G. Ham, held at the office of Dr. Bailey on Monday night, it was decided to place a quarantine over the town as a precaution against further trouble from infantile paralysis. The schools have been closed for two weeks, also the churches, moving picture show and all public gatherings as a means of safety and prevention. There are at present but two cases of the disease, and the children not being old enough to be in school it is hoped that there may be no further trouble. The children had not been up town for two weeks, but they live in a neighborhood where there are many children, and it is feared they may have been with them in their play, and those who have come in contact with the ill ones are in school. For this reason it was thought best to close the same for a time, till it was found what might develop. All parents are requested to keep their children on their own premises and not let them mingle with others in their play.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderrine hair cleanse."
